

HMS — Melanoma Detection Report

Generated on: 08 July 2026, 15:53 UTC | Report prepared by: Dr. Dr. Ramaneiss

DISCLAIMER: This report is generated by an AI-assisted melanoma screening system for clinical decision support only. It does not constitute a definitive medical diagnosis. All findings must be reviewed and confirmed by a qualified dermatologist. The AI model used in this system was trained to be equitable across demographic subgroups (age, sex, anatomical site) as part of a bias-reduction framework.

1. Patient Information

Full Name	Ahmed Al-Rashid	Patient ID	8
Date of Birth	1968-01-01	Age	58 years (MiddleAged)
Sex	Male	Contact	+60 19-890 1234
Assigned Doctor	Dr. Dr. Ramaneiss	Specialization	Dermatology

2. AI Melanoma Screening Results

Check #1 — 08 July 2026, 15:52

Predicted Class	Melanocytic Nevi	Confidence	37.9%
